

BABY A WRECK WITH ECZEMA

In Little Blisters, Itching and Scratching, Cross and Fretful, Became Bald Headed, Used Cuticura Soap and Ointment, Well Ever Since and Has No Eczema.

Mrs. Nordin's Ave., 5, W. Roanoke, Va.

"My baby's eczema began when she was about a month old. It would start in little blisters and would run wild; whenever that water ran it would make another until her whole face was covered in sores. She was a week with itching and scratching until we had to hold her hands at times. The eczema itched and burned so badly that sleep was out of the question. She would cry night and day and was cross and frowny all the time. Then it got on to her head. It became a scab all over her head and face and part of her body. When I would bathe her head the hair would come out. She became bald headed."

"I bought one cake of Cuticura Soap and one bar of Cuticura Ointment. I began to bathe her in Cuticura Soap three times daily and also used the Cuticura Ointment three times daily. In a month's time her skin was smooth and rosy. She has been well ever since and has no eczema." (Signed) Mrs. Irene McNeil, June 6, 1913.
